Market-cap exposure is based on long equity and net long spread positions.

Closed Positions

Issuer (Sector, Geography)	Exit Date
Undisclosed Synthetic Position (Industrials, UK)	Jun-26

Notes: All figures are estimated as of 30 June 2026 and are subject to change. This synthetic report preserves common structural features of manager risk reports while using fictional entities and newly generated values. Exposure is shown as a percentage of fund AUM. Gross exposure equals long plus the absolute value of short exposure; net exposure equals long plus signed short exposure.
